	Mono printing is the process of making one print using 'mark making' to add the detail and tone.		Dyeing is the application of dyes or pigments on textile materials such as fibers, yarns, and fabrics with the goal of achieving color	Food miles	The miles a food has travelled from its source to your plate	Dowel Joint	A dowel is a peg usually made of wood that fastens to object together.	Architect	A person who is qualified to design buildings and to plan and supervise their construction.
	paper pulp, is a raw material used for paper manufacture. It forms a matted or felted sheet on a screen when moisture is removed		Reverse applique is a fechniques where the fabric is layered and the top fabric is cut away and stitched in place to reveal the design.	Sustainability	the ability to be maintained at a certain rate or level	Schematic	A simplified plan using symbols .	Collage	A piece of art made by sticking various different materials such as photographs and pieces of paper or fabric on to a backing.
	A stencil is a thin sheet of card, plastic, or metal with a pattern or letters cut out of it. You use is to produce the design by the application of ink or paint through the holes		A cylinder that holds thread, yarn, or wire, used especially in weaving and machine sewing.			Soldering	Soldering is the process used to join electronic components together.	Layer	A sheet, quantity, or thickness of material, typically one of several, covering a surface or body.
	In art, proportion refers to the relationship between the different sized components within one whole composition. Proportion can be used to make a composition appear more realistic		The state of being stretched fight.			Investigation	The act of inquiring in a systematic way; the act of researching.	Crop	The Crop tool allows you to select an area of a photo and remove or crop everything outside the selected area.
						Product Analysis	features, costs, availability, quality, appearance and other aspects.	Select	A selection is a way to isolate part of an image
							a light-emitting diode which glows when a voltage is applied	Deselect	After making a selection, you may want to deselect it for different reasons. For instance, you might wish to start a new selection or apply effects to the complete image instead of just the selected area.
						Wetting	cover or touch witha liquid		

Art and Design Vocabulary List, Year 9

Students are explicitly taught vocabulary as part of their lessons using our 'say it, write it, test it' approach.

Variable	Art Pord Definition		Textiles Keyword Definition		Food Technology		D&T Keyword Definition		Photography Keyword Definition	
	Pop art is an art movement that emerged in the 1950s and flourished in the 1960s in America and Britain, drawing inspiration from sources in popular and commercial	Keyword	Art based on modern popular culture and the mass media, especially as a critical	Keyword Ultra Processed foods	Ultra-processed foods typically have five or more ingredients	Rotary	Revolving around a centre	Neyword Digital Portrait	Piece of art that is created on the computer (Photoshop) which depicts only the face or head and shoulders.	
Ben Day Dots	In art, proportion refers to the relationship between the different sized components within one whole composition. Proportion can be used to make a composition appear more realistic	Stencil	A thin sheet of card, plastic, or metal with a pattern or letters cut out of it, used to produce the cut design on the surface below by the application of ink or paint through the holes.	Free Sugars	any sugar added to a food or drink. Or the sugar that is already in honey, syrup and fruit juice.	Studding	A process of attaching one material to another	Layer	A sheet, quantity, or thickness of material, typically one of several, covering a surface or body.	
Onomatopoeia	Onomatopoeia - is the use or creation of a word that phonetically imitates, resembles, or suggests the sound that it describes	Screen Print	The process of pushing ink or metal on to (a surface) through a prepared screen of fine material so as to create a picture or pattern.	Allergens	a substance that causes an allergic reaction	Mechanism	a system of parts working together in a machine;	Pattern	A repeated decorative design.	
Sgradffito	Sgraffito is a form of decoration made by scratching through a surface to reveal a lower layer of a contrasting colour.	Squeegee	A scraping implement with a rubber-edged blade set on a handle,					Composition	Composition in art is the way in which different elements of an artwork are combined	
Pattern	Pattern – the repeated or regular way in which something happens or is done									
Repeat pattern	Repeat Pattern - the repetition of lines, shapes, tones, colours, textures and forms									
Half drop repeat	HALF DROP REPEAT in a half drop repeat, the motif repeats perfectly on the vertical line but then drops exactly half of the vertical repeat along the horizontal line.									
	A diamond repeat is simply created within a diamond shape and repeated in diagonal rows									
Block repeat	The most basic way of creating pattern is to block repeat. This is where the image is repeated in the same way in horizontal and vertical lines
